Security, Fraud and Scam Updates

Financial scams targeting seniors have become so prevalent that they're now considered "the crime of the 21st century." Why? Because seniors are thought to have a significant amount of money sitting in their accounts.

Financial scams also often go unreported or can be difficult to prosecute, so they're considered a "low-risk" crime. However, they're devastating to many older adults and can leave them in a very vulnerable position with little time to recoup their losses.

Be sure you are updated on the latest scams to avoid being a victim.
